

OCPS ACCELERATION WEST

Orlando, Florida

Contract Value
\$9.8 M

Architect
BRPH

Square Foot
58,650 SF

Type of Project
Renovation

Scope

OCPS Acceleration West involved the renovation of five existing buildings with a focus on admin areas, classrooms and media centers, kitchen and cafeteria, various labs, and various improvements across the campus. The renovation was broken down into multiple phases. First phase included the renovation of administration and classrooms with a new roof, replacement of the mechanical system, electrical and finishes upgrades. Second phase included the renovation of Media Center that included a new roof, replacement of the mechanical system, electrical and finished upgrades; new generator was installed in this phase.
