

# Miami Seaquarium

Miami, FL

Contract Value  
**\$5.7 M**

Architect  
**Miles Architecture  
Group**

Square Foot  
**13,989**

Type of Project  
**Renovation**

## Scope

This project renovated multiple aspects of the Miami Seaquarium, including educational exhibits meant to teach children and visitors about marine life. Safety and security were of the utmost importance to ensure protection of guests and sea life. Major scope items included entry and security control, upgrades to digital media stations, masonry, painting, doors and windows, demolition, electrical, and electrical upgrades.
