## **T&G CONSTRUCTORS DELRAY BEACH OFFICE CELEBRATES TWO YEARS**

*Florida construction firm opens its doors in southeast Florida*

DELRAY BEACH, FLORIDA—

In May of 2021, T&G Constructors, a construction management firm founded in Central Florida in 1987, announced the opening of its newest office off of Atlantic Avenue in Delray Beach, FL. This office services the Delray Beach, Palm Beach, Boca Raton, and Jupiter markets as well as other surrounding areas.

In addition to the offices in Orlando, Miami, and Tampa, the fourth T&G office aims to support the company's growth strategy while tapping into the resources of the nearby Miami office.

The award winning company specializes in ground up and large scale projects and has been privileged to serve many clients in various sectors including hospitality, entertainment, multifamily, education and professional offices.

The opening is a strong testament to the firm's commitment to continuing to expand across Florida, as it's done in its past 36 years in business.

"Serving the southeast Florida community has been an absolute pleasure, and I look forward to servicing all our new and existing clients in the area. There are a lot of exciting projects in the pipeline." said Richard Huckestein, Vice President of Operations out of the Delray Beach office.

T&G Constructors is one of the largest minority owned construction management firms in Florida and holds offices in Miami, Tampa, Delray Beach and Orlando. T&G specializes in ground up and large scale renovations throughout most every market sector.
