T&G Celebrates Milestone with Topping Out Ceremony For Toll Building Project
Reaching New Heights in Construction Excellence: A Symbol of Progress and Collaboration

Miami, Fla. (Nov. 3, 2023) —

T&G Constructors is thrilled to announce a momentous occasion in the construction of the Toll Building Project. As the project nears its completion, T&G is set to host a Topping Out Ceremony to mark this significant milestone.

The Topping Out Ceremony, a long-standing tradition in the construction industry, represents a crucial point in the journey of the building of a project. This event will bring together key stakeholders and project partners to commemorate the dedication and hard work that has gone into making this project a reality.

During the ceremony, a tree will be lifted on the roof which is a symbolic tradition marking progress and celebrating the collaborative effort from both the construction and design teams to help bring the project to life.

What: Topping Out Ceremony for Toll Building
When: November, 3, 2023; 11am-1pm
Where: 70 NW 28th St, Miami, FL 33127

This project will become a reality by the collaboration of owner Jacob Toll, general contractor T&G Constructors, international architecture firm Arquitectonica, owners' representative Fortis Design + Build, and design firm Studio James Brazil.

The Toll Building is a 3-story retail building that will include a paseo to serve as an open area for the community to gather and connect with the surrounding areas of the place. Once complete, the building will serve as a worthy representative of the avant-garde ambiance that characterizes Wynwood. The Toll Building shell is expected to be completed in the Spring of 2024, with the tenant space construction starting shortly thereafter. Toll Building will be the house of The Stand, Restaurant & Comedy Club, originally from NYC.

T&G Constructors is one of the largest minority owned construction management firms in Florida and holds offices in Miami, Delray Beach and Orlando. T&G specializes in ground up and large scale renovations throughout various market sectors.
